¹ Local printing requires mobile device and printer to be on the same network or have a direct wireless connection to the printer. Wireless performance is dependent on physical environment and distance from access point. Wireless operations are compatible with 2.4 GHz operations only. Remote printing requires an Internet connection to an HP web-connected printer. App or software and HP ePrint account registration may also be required. Wireless broadband use requires separately purchased service contract for mobile devices. Check with service provider for coverage and availability in your area. See <http://www.hp.com/go/mobileprinting> for more details.

² Requires a wireless access point and an Internet connection to the printer. Services require registration. Availability varies by country, language, and agreements, and may require a firmware upgrade. HP Printables may not be available on all printer models, and not all apps can be set up for automatic delivery. For details, see hpconnected.com

³ An app or driver may be required to use HP wireless direct. For details, see hp.com/go/wirelessprinting. Wireless performance is dependent on physical environment and distance from the printer.

⁴ Requires separate download of HP All-in-One Remote app to your smartphone or tablet. Mobile device requires wireless access point and Internet connection. Features controlled by the app may vary by mobile device operating system. Scan/copy control requires mobile device and printer be on the same wireless network or through a wireless direct connection to printer. For more details, see <http://www.hp.com/go/mobileapps>

⁵ HP Auto Wireless Connect may not be available for all system configurations. Wireless performance is dependent on physical environment and distance from access point.
